HONORS DR. PAUL LECLERC

Dr. Paul LeClerc, president of The New York Public Library, received the American Friends of the Open University of Israel's Yigal Allon Award recently. The gala celebration held at The Plaza raised \$400,000 for the university's 43,000 students, educational programs, and scholarships. The annual award is given to an individual for inspired leadership and contributions in the field of education. Dr. LeClerc, who has dedicated himself to the availability of literature and learning, exemplifies the principles of both the NYPL and Open University of Israel.
